Emergency Tarp Covering

CROWN TARP-PROTECTION PROJECT

A prompt covering for a damaged roof.

Tarp the problem area with **up to a 16' x 20' tarp, cap-nailed in place**. This is a temporary roof-covering service for the affected area.

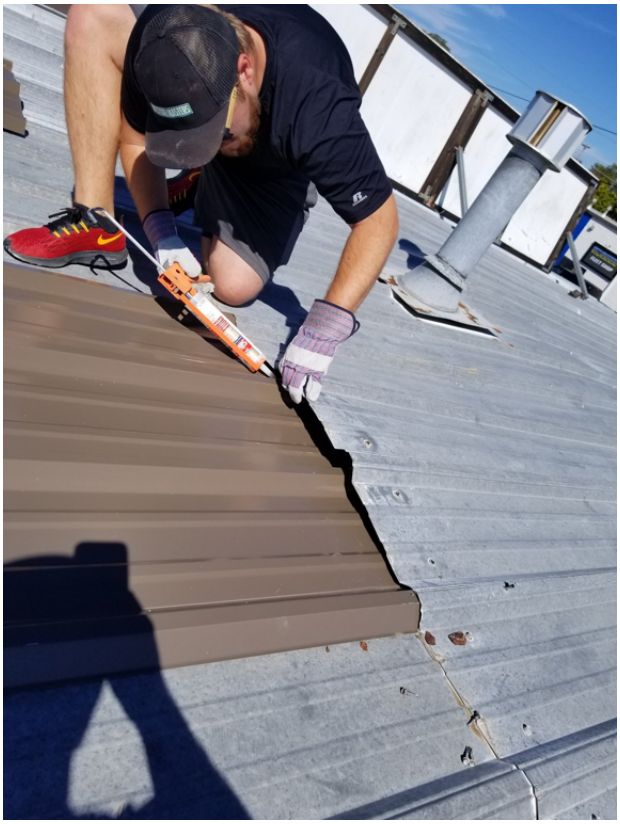

Priority service hours
Monday-Friday, 8:00 am-5:00 pm. Confirm availability and scheduling with Crown.

A tarp may not always stop active leaks. Crown is not responsible for interior damage from a leaking roof. The property condition and affected area determine the next step.

Roof Tune-Up

HANDS-ON CROWN ROOF SERVICE

A closer look. Basic service included.

The tune-up includes a **roof inspection and minor repairs**: sealing, inspecting roof details, checking nails and other basic roof services.

Plan a seasonal visit
Crown recommends seasonal tune-ups, especially in spring and winter.

Discuss the current roof condition and the requested service with Crown. Confirm the included work, any additional scope, price and appointment before work begins.
