Euroshield Synthetic Slate

A slate-look synthetic system with its own material and warranty documentation. This photo shows Crown's documented Euroshield installation.

Ludowici Clay Tile

Clay tile is distinct from synthetic slate. Confirm structure, fastening, flashings and specialist scope. Photo: actual documented clay-tile observation.

Planning example using actual Crown project and field photographs. Product suitability, quantities, availability and price require property-specific confirmation. Photo captions identify what each image does and does not establish.

Compare options before authorizing.

Impact-Resistant Shingles

Compare the specified product, impact rating, installation requirements and complete scope. The photo shows Crown shingle work; it does not verify that pictured shingles hold a particular rating.

Ventilation & Drainage

Review intake and exhaust, roof transitions, gutters and downspouts together. Identify the work the property actually needs. Photo: actual Crown roof-ventilation example.

Planning example using actual Crown project and field photographs. Product suitability, quantities, availability and price require property-specific confirmation. Photo captions identify what each image does and does not establish.

Solar Service & Roof Coordination

Review existing equipment, monitoring history, roof interfaces and detach/reset needs before authorizing work. Photo: actual Crown installation.

A SEPARATE SERVICE PATH / DIRECTORII ROOF CARE

Emergency Tarp Covering Roof Tune-Up

Temporary tarp protection and seasonal inspection with minor service have their own Directorii offers. They are separate from the five upgrade comparisons in this guide.

Explore Directorii Roof Care | Read The Two Service Scopes

Compare the five upgrade options, then confirm the product, quantities, exclusions and owner-paid cost in a written proposal. Selections request pricing; they do not authorize work. No example prices or savings are asserted.
