

EUROSHIELD

PROTECTING YOUR HOME | CONSERVING OUR PLANET

MODERN ROOFING BUILT TO LAST

The days of sacrificing beauty and style for durability and toughness are over.

We set out to develop durable roofing materials that wouldn't end up in a landfill after a few years.

Euroshield roofs, made from recycled tires, come with an unbeatable warranty that underscores the peace of mind you should feel by having an almost indestructible roof over your head.

EUROSHIELD

PROTÈGE VOTRE MAISON | CONSERVE NOTRE PLANET

PROTECTING YOUR HOME

Shake or Slate Euroshield shingles are built to last 50 years in hail, high winds, heavy rain, ice and snow.

Euroshield's unique locking system provides superior performance.

- All products UL2218 Class 4 Impact Rated
- Passed a 170mph straight wind test
- Class C Fire Rated

Our Vermont Slate and Beaumont Shake Hail Proof shingles are warrantied for ANY SIZE hailstone for the first 20 years– longer than traditional roofs usually last.

We wanted to go beyond merely "acceptable" criteria for UL2218 Class 4 and created hail-proof roofing solutions proven to withstand impact from softball-size hailstones.

Additional Euroshield styles are warrantied for 50 years against hail up to two inches in diameter.

CONSERVING OUR PLANET

Utilizing sustainable, eco-friendly technology, Euroshield rubber roofs are:

- Manufactured from 95% recycled materials
- Contain the highest quality crumb rubber derived from recycled tires
- Developed to reduce the deluge of old tires clogging up landfills

Approximately 300 tires are used to produce one Euroshield roof. And all Euroshield roofing products are fully recyclable at the end of their life cycle. We serve your home far into the future with durable and low-maintenance roofing, while doing our part for the planet.

SHAKE ROOFING: BOLD & VERSATILE

Euroshield Shake gives your roof an upscale, authentic, wood appearance without sacrificing strength and durability—giving your home a rustic charm with elegant lines and smooth style.

BEAUMONT SHAKE & BEAUMONT SHAKE HP

RANCHLANDS SHAKE

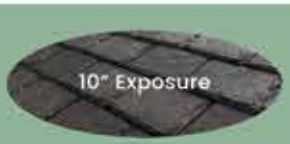

SLATE ROOFING: LUXURY & PERFORMANCE

Slate shingles are expensive, heavy, and can crack under the weight of snow and hail. Euroshield Slate gives you the aesthetic appeal of authentic slate but with the lightness of rubber, providing unprecedented durability and longevity—all at a much lower cost.

RUNDLE SLATE

VERMONT SLATE & VERMONT SLATE HP

Why Choose Euroshield?

- Extremely durable
- Virtually maintenance-free
